

NEWS

April 2019

The Autism Strategy group are writing their **Joint Strategic Needs Assessment**. This is a plan for future services for people with Autism. If anyone wants to **have a say** please let us know.

At the Blackpool Conference this year, one of our members **Michael Gentle** was awarded a place on the **Campaigns Group** for Pathways Associates. Congratulations Michael! This is for 4 years. We will keep you updated.

Some of our group members visited **Graham Garnett** to say thank you. Graham was leaving his job at Cheshire West and Chester Council.

Graham has helped us with lots of things around local accessibility.

Graham said that one of things he was most proud of was introducing so many changing places in the area. There are 11 now and more being organised.

If you want to know more about any of these things please contact us.
