

# NEWS

July 2018

The **Green Team** from Blackpool came to the last meeting. They told us all about their **gardening project**. They make their local area a nicer place to live for everyone.

The **Council and Vivo** want to hear from people who use day services in **Chester, Ellesmere Port and Neston**. They want to know what people think. Call us if you want contacts details or a survey form.

There is a new telephone number for **ALL** carers support services in our area. Carers can call on **0300 1020008**.

The Partnership Board is working to make sure people in wheelchairs who call **999** can get to hospital. Some ambulances have not got room for people who have large wheelchairs.

Someone was also stranded on a motorway when their bus broke down. The **AA** vehicle did not have room for them either. The Partnership Board will look into this too. More news soon.

If you would like more information contact **Ali McAvoy** at the **Peoples Choice Group**.
